ACHIEVEMENTS
1983 - 85

INTRODUCTION

This booklet, published along with the Biennial Report 1983-85 presents a summary of achievements and important events of the two years.

Important events

*The Indian Chemical Manufacturers' Association (ICMA) recognized the NCL's contributions while conferring the Sir P. C. Ray Award for 'Development of Indigenous Technology' for 1983 on CIPLA, Bombay, and the 'Forward Development Technology' award on HICO Products Ltd., Bombay.

The citation mentions the imaginative way NCL has demonstrated its expertise in dealing with complicated chemical engineering-oriented technology for the manufacture of silicones by HICO Products Limited. Recognition has been made of NCL's contribution in the development and successful transfer of technology in a very demanding and challenging area and the 'fruitful co-operation between a national laboratory and an industrial unit has been deeply appreciated'.

* Dr. L. K. Doraiswamy, Director of NCL, was presented the prestigious 'Distinguished Service Citation' by the University of Wisconsin-Madison, USA, in recognition of his eminent professional services as chemical engineer and researcher who 'through his technical expertise and commitment to excellence, has made contributions to chemical engineering science and the chemical industry of India.

Dr. Doraiswamy was invited by the University of Bombay to be the Dr. G. P. Kane Visiting Professor in Chemical Engineering for the year 1984-85.

* The Indian Academy of Sciences, Bangalore, selected as Young Associates Dr. T. N. Guru Row for his contributions to X-ray crystallography, Dr. M. G. Kulkarni for his contributions to polymer science and engineering, Dr. S. D. Prasad for his contributions to chemical engineering and Dr. J. S. Yadav for his contributions to organic chemistry.

* Dr. A. F. Mascarenhas was elected Fellow of the Maharashtra Academy of Sciences, Pune, for his contributions to plant tissue culture.

* Dr. R. A. Mashelkar was elected Fellow of the Indian Academy of Sciences in recognition of his outstanding contributions to chemical engineering

sciences and Fellow of the Indian National Science Academy for his outstanding contributions to polymer engineering science.

Dr. Mashelkar was awarded the inaugural Prof. M. Santappa Silver jubilee Award in recognition of his outstanding research in polymer science.

Dr. Mashelkar was awarded the prestigious 'Shanti Swarup Bhatnagar Prize for the year 1982 for engineering sciences in recognition of his outstanding research in polymer science and engineering.

Dr. Mashelkar was awarded the Mrs. Chinnamal Memorial Prize for the best technical paper presented at the Annual Session of the Institute of Chemical Engineers (1983).

Dr. Mashelkar was invited by the University of Bombay to deliver the Prof. K. H. Kabbur Memorial Lecture for the year 1983.

Dr. Mashelkar was felicitated as one of the ten outstanding citizens of Pune by the Deccan and Saras Jaycees, Pune, 1983, and was awarded the 'Role of Honour - 1984' by Giants International, Pune.

* Mr. B. M. Pathan was awarded the third prize at the Sixth Safety Poster Competition - 83 organised by the Council of Industrial Safety, Bombay.

* Dr. A. V. Rama Rao was elected Fellow of the Indian Academy of Sciences for his outstanding contribution in the field of organic chemistry for the year 1984.

Dr. Rama Rao was awarded the K. G. Naik Gold Medal of M. S. University of Baroda for the year 1982 for his outstanding contributions to the field of organic chemistry.

Dr. Rama Rao was invited to deliver two lectures under the Prof. A. Kulkarni Lectureship Endowment, University of Bombay, for the year 1983.

* Dr. P. K. Ranjekar was offered a National Biotechnology Board Overseas Junior Associateship for excellence in the area of biotechnology.

* Dr. A. V. Shenoy was selected for the Amar Dye Chem Award for 'excellence in research and development' for the year 1984 by the Indian Institute of Chemical Engineers, Calcutta.

* Dr. S. P. Vernekar, Dr. B. B. Idage, Dr. P. P. Wadgaonkar, Dr. N. D. Ghatge and Mr. S. S. Mohite were awarded the prestigious 'Dunlop Award (1985)' for their outstanding basic research in the field of rubber chemistry and technology.

Research Utilization

During 1983-85, 60 NCL processes were in production with a turnover of about Rs. 84 crores. The foreign exchange saving on account of production during this period is estimated at about Rs. 34 crores.

Premia/Royalties

The amounts of premia and royalties received by the NRDC in 1983-85 on account of NCL processes were Rs. 0.50 lakhs and Rs. 3.31 lakhs respectively.

Consultancy

During the period under review, institutional consultancy was offered to 32 firms.

Patents and Publications

22 new patents were filed during these two years. 76 Indian patents (9 sealed, 16 accepted and 51 filed) and 17 foreign patents were in force as on 31-3-85. 378 research papers were published in these two years.

Recognized Guides and Degrees Awarded

Forty-eight NCL scientists are recognized as research guides by different universities and institutes for post-graduate degrees.

Doctorate and Masters degrees were awarded to 70 NCL staff members, research fellows, teacher fellows and guest workers.

*These process have also appeared in Table I along with other licensees.
In addition to the processes listed above the following sponsored processes were also completed during 1983-84 and 1984-85; and due to the nature and objective of these schemes no production was envisaged. (i) Aromatic polymers/polyamides, (ii) Enzyme reagents, (iii) Physics and chemistry of oxide surfaces, (iv) Studies on fluidization with reference to acrylonitrile reactor and (v) Scler grade polysilicon.
The process on clofibrate which was included in Table II of the Annual Report 1982-83 has now been dropped as the party is not likely to implement the know-how on techno-economic reasons.

LIST OF PROCESSES AVAILABLE

(As in March 1986)

Sl. No.	Name of the process/product	Field of utilisation	Major raw materials	Range of total capital requirement		Remarks
				1	2	
3	4	5	6			
1. Acetanilide	Drug and dye intermediate	Aniline and acetic acid	C	Released, in production, turn-key plant available through project engineers		
2. Aniline	Organic intermediate	Nitrobenzene, hydrogen and catalyst	C	Released		
3. Atrazine	Herbicide	Cyanuric chloride, ethylamine and monoisopropylamine	C	Released		
4. <i>tert</i> -Butyl catechol	Stabilizer and polymerization inhibitor for synthetic rubber	Catechol, <i>tert</i> -butyl alcohol and catalyst	A	Released, in production		
5. Butyl titanate	Insulating varnish, special paints, catalyst	Butanol and titanium tetrachloride	B	Released, in production		
6. Can lining composition (based on nitrile rubber latex)	Lining cans for storing mineral oils, greases, food	Synthetic rubber latex, synthetic resins and rubber chemicals	A	Released, in production		
7. Can sealing composition (based on natural rubber)	Metal can industry	Natural rubber latex and rubber chemicals	A	Released, in production		
8. Carboxin	Pesticide	Acetoacetanilide, sulphuryl chloride, benzene and 2-mercaptoethanol	C	Released		
9. 2-Chloroethyltrimethyl ammonium chloride	Plant growth regulator	Trimethylamine and ethylene	A	—		
10. Diazepam	Anti-anxiety drug	p-Nitrochlorobenzene, benzyl cyanide, dimethyl sulphate, iron powder and chloroacetyl chloride	A	Released		
11. Dichloropropionic acid (Dalapon)	Weedicide	Propionic acid, chlorine and soda ash	C	Released		

A— Capital requirement less than Rs. 10 lakhs

B— Capital requirement between Rs. 10 lakhs and Rs. 20 lakhs

C— Capital requirement above Rs. 20 lakhs

These figures are tentative and purely indicative, and are subject to revision from time to time.

12. Dimethoate	Pesticide	Phosphorous pentasulphide, methanol, monochloroacetic acid, methyl amine and caustic lye	C	Released, in production	
13. Dimethylaniline (batch process)	Dyestuff and explosives intermediate	Aniline and methanol	C	Released	
14. N, N'-dimethyl biguanide HCl and phenethyl biguanide HCl	Drugs	Dicyandiamide, dimethyl amine/β-phenylethylamine and solvents	A	Released	
15. Endosulfan	Pesticide	Hexachlorocyclopentadiene, butenediol, thionyl chloride and epichlorohydrin	C	Released, process available on turn-key basis through project engineers	
16. Ethylenediamine	Bulk organic chemical	Ethylene dichloride, ammonia and caustic soda	C	—do—	
17. Etephon	Pesticide	Phosphorus trichloride, ethylene oxide, hydrochloric acid and sulphuric acid	A	Released	
18. Ethion	Pesticide	Phosphorus pentasulphide, ethyl alcohol, dibromo-methane and caustic soda	C	Released, in production	
19. Ethylene from ethyl alcohol	Organic intermediate	Ethyl alcohol and catalyst	A	Released	
20. Ethylene dichloride from ethyl alcohol	Solvent and organic intermediate	Ethyl alcohol, chlorine and catalyst	C	—	
21. Ferrites-Hard	Electronics	Iron oxide, barium carbate, additive and binder	B	Released, in production	
22. Gaskets from cork granules	Gaskets	Cork granules, nitrile rubber and rubber chemicals	A	Released	
23. Maleic hydrazide	Plant growth regulator	Maleic anhydride and hydrazine hydrate	A	Released, in production	
24. Methyl chlorosilanes	Basic material for silicon	Ferrosilicon and methyl chloride	C	Released, in production	
25. Microfilters	Industrial filtration	Pulp, melamine and formaldehyde	A	Released	
26. Monochloroacetic acid	Intermediate for weedicides, carboxymethylcellulose, etc.	Acetic acid, chlorine and catalyst	B	Released, in production	
27. Monochlorobenzene	Bulk organic chemicals	Benzene and chlorine	C	Released	
28. Monoethylaniline	Intermediate for explosives	Aniline, ethyl alcohol and catalyst	B	Released in production	

1	2	3	4	5	6
29.	Morpholine	Intermediate for rubber chemicals, textile chemicals, optical brighteners, etc.	Diethanolamine, sulphuric acid and caustic soda	C	Released
30.	Necelone	Perfumery chemical	Longifolene		Released
31.	Nicotine sulphate from tobacco and tobacco waste	Insecticide	Tobacco/tobacco waste, lime, kerosene and sulphuric acid	A	Released, in production
32.	p-Nitrophenol	Intermediate for parathion and paracetamol	p-Nitrochlorobenzene, sodium hydroxide lye and hydrochloric acid	C	Released, in production
33.	Phthalate-butyl octyl	Plasticizer in non-electrical applications	Phthalic anhydride, butyl alcohol and 2-ethyl hexanol	C	Released, in production
34.	Phthalates-dibutyl/dioctyl	Plasticizers	Phthalic anhydride and butyl alcohol/2-ethyl hexanol	C	Released, in production
35.	Phthalates-dimethyl diethyl	Plasticizers	Phthalic anhydride and methyl/ethyl alcohol	C	—do—
36.	D. C. Recording polarograph	Polarographic analysis	Component parts and boxes	A	—do—
37.	Polyol for making polyurethane rigid foam	Rigid foams	Cardanol, formaldehyde and a suitable amine	A	—
38.	Polysulphide liquid rubber	Adhesives, sealants, etc.	Ethylene chlorhydrin, p-formaldehyde, sodium sulphate, sulphur, sodium hydroxide and iron sulphide	A	—
39.	Polyurethane coating	Coating for leather, rubber, wood, glass, etc.	Castor oil, toluene diisocyanate and solvents	A	Released, in production
40.	Polyurethane printing rollers	Printing rollers	Castor oil, polyethylene glycol and toluene diisocyanate	A	—do—
41.	Quinapyramine sulphate and chloride	Veterinary drug	p-Aminoacetanilide, ethyl acetoacetate, ammonium acetate, dimethyl sulphate and guanidine carbonate	C	Released in production
42.	Radiosonde thermistors	Meteorology	Metallic oxides, platinum foil and components	A	Released, in production

2	3	4	5	6	
43.	Rubber blowing agent	Rubber chemicals	Hexamine, sodium nitrite, hydrochloric acid and stabilizers	A	Released
44.	Rubber reclaiming agent	Rubber chemicals	Xylene and sulphur monochloride	A	Released
45.	Silica gel (desiccant type)	Humidity control	Sodium silicate and sulphuric acid	A	Released, in production
46.	Silicon tetrachloride	Industrial chemical	Ferrosilicon, chlorine and hydrochloric acid	C	—
47.	Silver paste for mica capacitor electrodes	Electronic industry	Silver nitrate, acetone, caustic soda, glass and filler	A	Released
48.	Simazine	Herbicide	Cyanuric chloride and ethylamine	C	Released
49.	70 % Sorbitol from dextrose monohydrate	Pharmaceuticals and Vitamin C synthesis	Dextrose monohydrate, hydrogen and catalyst	C	Released, in production
50.	Direct reading spectrophotometer/colorimeter	Biochemical research and spectroscopic analysis in visible range	Components and boxes	B	—do—
51.	Staple pin adhesive	Adhesive for staple pins	Synthetic resin and solvent	A	—do—
52.	Terpineol	Perfumery	Turpentine oil	B	—do— (pilot plant available with NRDC)
53.	Theophylline, amino-phylline and caffeine	Drugs (caffeine also used in beverages)	Dimethylurea, monochloroacetic acid, acetic anhydride	C	Released
54.	Thermistors	Temperature measurement and control electronic devices	Oxides of high purity components and binder	A	Released in production
55.	Trichlorobenzene	Intermediate	Non-gamma BHC residue and caustic lye	B	Released, in production
56.	Vinblastine sulphate, vincristine sulphate	Drugs	Vinca rosea leaves	C	Released
57.	Vitamin B ₆	Drug	—	A	Released
58.	Xanthates— potassium ethyl and potassium amyl	Froth-flotation	Ethyl/amyl alcohol, potassium hydroxide and carbon disulphide	A	Released
